ABOUT THE PROJECT

The Catawban Cultural Hall project is a partnership between the Historical Association of Catawba County, the United Arts Council of Catawba County, and other public organizations that serve the same regional constituency. The goals of the project include:

- To make the traditions, stories, and objects of diverse cultures in Catawba County more *accessible* to the public.
- To install a new public art display that will embody *community memory* while also advancing cultural understanding through art.
- To foster new community partners for the Historical Association.

The Exhibit, "Unpacking: How many cultures make Catawba home," will be a long-term display on the ground level of the Catawba County Museum of History in the 1924 Courthouse in Newton. Artifacts like yours will be on display for a year at a time, possibly longer with your permission.
